TEADIT 24 HD

Material properties:

TEADIT 24 HD is a non-asbestos gasket material made from expanded, pre-densified, pure virgin PTFE. The whole production process is subject to strict quality control, registered under DIN EN ISO 9001

Application areas:

TEADIT 24 HD is particularly well suited to compensate for out-of-parallel and/or damaged sealing surfaces, and where a certain remaining thickness is required. Typical applications are heat exchangers, large containers, tank lids, pump housings, flanges, hand- and manholes, etc.

Technical data:

- Temperature range: - 240°C up to +260°C, for short periods up to +310°C
- Chemical resistance: resistant against all chemicals from pH 0-14 (except molten alkali metals and elemental fluorine at high temperature and pressure)
- Pressure resistance: vacuum up to 200 bar
- Density: 1,0 g/cm³, +/- 0,1g/cm³
- Aging resistance: **TEADIT 24 HD** does not age (please note: adhesive tape has limited shelf life!)
- Colour: white

Advantages:

- Quick and simple installation: adhesive strip makes installation easier
- Excellent malleability: compensates for small damages and uneven areas on the flange faces
- Exceptional thermal and chemical stability: makes this material very versatile
- No risk: the versatility of **Teadit 24 HD** eliminates the risk of using wrong material for a certain application – this prevents avoidable breakdowns
- **TEADIT 24 HD** is physiologically harmless. It has no smell or taste. It is neither contaminating nor toxic and does not get influenced by micro-organisms and / or fungi.

Standard dimensions:

Dimensions (mm)	Standard flange size
• 4 x 2,5	up to DN 500
• 6 x 4,6	from DN 500 up to DN 1500
• 8 x 5,5	DN 1500 and larger
• 10 x 7	DN 1500 and larger

When choosing the best suitable dimension of **TEADIT 24 HD**, one has to take the available bolt torque and possibly damaged or out-of-parallel gasket surfaces into account.

TEADIT 24 HD is available on spools, with self-adhesive strip

Approvals: • WRc
