

Product information

Stuffing-Box-Packing Type 2048

Material composition

Diagonally braided from graphited Aramid staple fibre, impregnated with an inert lubricant.

Please note: the colour of the actual product might vary from the image on this data-sheet.

Properties

Very strong and durable packing, the added graphite improves the heat dissipating properties compared to conventional Aramid packings.

Application areas

Can be used for dynamic and static applications like rotary and plunger pumps, valves, stirrers and mixers etc., by many different industries.

Application media

Suitable for water, sewage, mild acids and caustics, chemicals, abrasive media like slurries and brine.

Not suitable for

Concentrated acids and lyes, alkali metals, oxygen.

Benefits

Economical multi purpose packing.

Temperature:

	- temp	+ temp
(°C)	100	280

Pressure:

	rotating:	reciprocating:	static:
(bar)	20	80	150

pH: 2-12 density: 1,2 v: (m/s) 20
